WORK EXPERIENCE

Web Developer

Mar 2024 - Nov 2024

Intrigue Media Solutions Inc., Guelph, Canada

- Managed plugins, performed core updates, backups, and security monitoring across 128 WordPress websites monthly, ensuring optimal site health, mitigating security risks, and maintaining minimal downtime.
- Provided comprehensive ticket support for WordPress websites, addressing technical issues, implementing feature requests, and resolving bugs to ensure seamless user experiences.
- Collaborated with clients and internal teams to troubleshoot and resolve website performance, functionality, and design concerns within SLA timelines.
- Documented solutions and best practices to streamline future support processes and enhance operational efficiency.

Front End Developer

May 2022 - Mar 2024

The Branding Firm Inc., London, Canada

- Develop pixel-perfect, user/SEO-friendly websites, with two of them earning prestigious **IAC awards** for excellence.
- Consecutively managing plugins and performing weekly core updates for 7 Wordpress websites preventing security risks and ensuring good site health.
- Enhance the mobile and web performance of a specific website by an impressive margin of 10-12%, optimizing its speed, responsiveness, and overall functionality.
- Successfully developed a website with an accessibility score of 98/100 according to Lighthouse testing tool.
- Identified and removed hidden malicious code during phishing attack to restore working condition of the website.
- Collaborated with design team to come up with great solutions which align with client's profession and successfully implemented ideas together.

Junior Web Developer

Jul 2021 - May 2022

Redding Designs Inc., London, Canada

- Followed best practices to develop responsive pixel-perfect and AODA compliant websites while maintaining coherent feel and awareness.
- Cultivated confidence of clients about editing Wordpress pages and posts by educating them after website launch.
- Prioritize internal development activities along with urgent, often unscheduled, development request with a high level of urgency.
